To The Chief Secretary to
the Government of Mysore,
Bangalore.

No. 8312, dated 23rd Sept. 1939.

Sir,

I am directed to inform you that at a meeting of the Central Committee of the Association of the Pasteur Institute of Southern India, held on 14th September, 1939, it was resolved that the price charged for antirabic vaccine issued from this Institute should be reduced from Rs.6/- per course to Rs.5/- per course with effect from 1st October, 1939. This price is inclusive of packing and postage.

The Committee is anxious to reduce the price of the vaccine to the lowest possible level so that it may be readily available to all who may require it. The cost of production of the vaccine is inversely proportional to the quantities manufactured and the low price at which this product is now offered is possible only by reason of the exceptionally large quantities manufactured at this Institute. It is hoped that it may be possible in future years to make a further reduction in the cost of the vaccine by granting substantial rebates to purchasers of large quantities.

This Institute is now a self-supporting organisation which is dependent entirely on revenue accruing from the sale proceeds of the vaccine and on income received from voluntary contributions and endowments. Besides the manufacture and issue of antirabic
